

Jacky Choi

Software Engineer

SUMMARY

Creative, detail-oriented software engineer with a deep interest in computer science. Experienced with front end web development. Currently a second-year college student looking to learn and apply my skills in an internship.

EXPERIENCE

Software Engineer at 100devs

January 2023 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured web applications

Recent Projects:

[The Running Project](#) (Web App) - I built a web app called "The Running Project" using HTML, CSS, and JavaScript. As part of this project, I also wrote over 10 posts about my experiences with running. To ensure a great user experience, I implemented media queries to make the website responsive and mobile-friendly.

RunFit Associate REI Co-Op | San Francisco, CA

August 2021 — December 2022

During my time as a Run Fit Associate at REI Co-Op, I shared my expertise on the lifestyle of long distance running, and inspired customers to lead a healthier life outdoors. I also analyzed the gait patterns and biomechanical health situations of runners, hikers, and walkers to recommend the optimal gear for their respective activities. In addition, I facilitated the inventory of hundreds of SKUs (items) and worked with my team members to ensure proper stock maintenance and store organization. These experiences sharpened my skills in customer service, problem-solving, and attention to detail.

Education

Associate of Science in Computer Science

City College of San Francisco | Expected: 2023 | Current GPA: 3.6

Bachelor of Science in Kinesiology - Exercise and Movement Sciences

San Francisco State University, CA | Finished: 2021 | GPA: 3.84

Certificates

Web Application Programming | CCSF | Expected 2023

Google IT Support Professional | Remote | Expected 2023
